

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

MUSEUM OF COMPARATIVE ZOOLOGY.

N^o 12355.

GIFT OF

ALEX. AGASSIZ.

May 1, 1901

U. S. DEPARTMENT OF AGRICULTURE.
= DIVISION OF ENTOMOLOGY.

BIBLIOGRAPHY
OF
THE MORE IMPORTANT CONTRIBUTIONS
TO
AMERICAN ECONOMIC ENTOMOLOGY.

PART VII.
THE MORE IMPORTANT WRITINGS PUBLISHED BETWEEN
DECEMBER 31, 1896, AND JANUARY 1, 1900.

PREPARED UNDER THE DIRECTION OF THE ENTOMOLOGIST,

BY

NATHAN BANKS,
ASSISTANT.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1901.

DIVISION OF ENTOMOLOGY.

Entomologist: L. O. Howard.

First Assistant Entomologist: C. L. Marlatt.

Assistant Entomologists: Th. Pergande, F. H. Chittenden, Frank Benton.

Investigators: E. A. Schwarz, D. W. Coquillett.

Assistants: R. S. Clifton, Nathan Banks, F. C. Pratt, Aug. Busck, Otto Heidemann,
A. N. Caudell, J. Kotinsky.

Artist: Miss L. Sullivan.

FORTY-SEVENTH CONGRESS, FIRST SESSION.

CONGRESS OF THE UNITED STATES,
IN THE HOUSE OF REPRESENTATIVES,

June 24, 1882.

Resolved, By the House of Representatives (the Senate concurring),
that there be printed, for the use of the Department of Agriculture,
one thousand copies of a special report entitled "Bibliography of
Economic Entomology."

Attest:

EDW. MCPHERSON, *Clerk*.

Passed the Senate July 6, 1882.

F. E. SHOBER, *Acting Secretary*.

A true copy.

EDW. MCPHERSON, *Clerk*.

LETTER OF TRANSMITTAL

U. S. DEPARTMENT OF AGRICULTURE,
DIVISION OF ENTOMOLOGY,
Washington, D. C., November 28, 1900.

SIR: I transmit herewith for publication Part VII of the Bibliography of the More Important Contributions to American Economic Entomology, bringing the whole bibliography down to the close of the calendar year 1899.

Respectfully,

L. O. HOWARD,
Entomologist.

Hon. JAMES WILSON,
Secretary of Agriculture.

BIBLIOGRAPHY OF THE MORE IMPORTANT CONTRIBUTIONS TO AMERICAN ECONOMIC ENTOMOLOGY.

PART VII.

1. ALDRICH, J. M. Report of the Department of Entomology. <Bull. No. 15, Idaho Agric. Exp. Sta., July, 1898, pp. 167-176, 2 figs.
Notes on grasshoppers, *Camnula pellucida*, *Leptocoris trivittata*; kerosene against mosquitoes, *Aspidiotus ancylus*.
2. ALDRICH, J. M. The San Jose scale in Idaho. <Bull. No. 16, Idaho Agric. Exp. Sta., March, 1899, pp. 16, 3 figs., 2 pls.
A general account of the insect.
3. ALDRICH, J. M. Insects affecting sugar beets. <Bull. No. 18, Idaho Agric. Exp. Sta., July, 1899, pp. 35-36.
Notes on cutworms, flea-beetles, blister beetles, garden webworm, and wireworms.
4. ALWOOD, W. B. Instruction for winter treatment of the San Jose scale. <So. Planter, January, 1897, p. 19.
5. ALWOOD, W. B. Notes on treatment of the San Jose scale, with directions for work in winter. <Bull. No. 72, Va. Agric. Exp. Sta., January, 1897, pp. 11.
6. ALWOOD, W. B. First annual report of the State inspector for the San Jose scale, 1896-97. Richmond, Va., November, 1897, pp. 15.
Infested localities in the State.
7. ALWOOD, W. B. Inspection in relation to the suppression of the San Jose scale. <Trans. Amer. Assoc. Nurserymen, 1897, pp. 25-33.
8. ALWOOD, W. B. Some enemies of the fruit grower. <Proc. Ga. St. Hort. Soc., 1897, pp. 38-42.
Notes on *Aspidiotus perniciosus*, *Lecanium persicae*, and new peach scale.
9. ALWOOD, W. B. [Legislation against insects.] <Proc. Ga. St. Hort. Soc., 1897, pp. 44-50.
10. ALWOOD, W. B. Recommendations as to State and national legislation relating to insect pests and plant diseases. Washington, 1897.

11. ALWOOD, W. B. Winter treatment for San Jose scale destruction. <So. Planter, February, 1898, pp. 66-67.
12. ALWOOD, W. B. Inspection and remedial treatment of San Jose scale. <Bull. No. 79, Va. Agric. Exp. Sta., August, 1897 (February, 1899), pp. 73-94, 3 figs.
13. ALWOOD, W. B. The San Jose scale question. <Rural New Yorker, 19 February, 1898, p. 127.
14. ALWOOD, W. B. San Jose scale. <Rural New Yorker, 12 March, 1898, p. 180.
15. ALWOOD, W. B. Legislation for the suppression of the San Jose scale in Virginia. <So. Planter, May, 1898, pp. 238-240.
16. ALWOOD, W. B. Summer treatment for the San Jose scale. <So. Planter, June, 1898, pp. 271-274.
17. ALWOOD, W. B. Notes on life history of the woolly aphid of the apple. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 70-72.
18. ALWOOD, W. B. On the life history of *Protoparce carolina*. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 72-74.
19. ALWOOD, W. B. Spraying the orchard. <Bull. No. 100, Va. Agric. Exp. Sta., May, 1899, pp. 83-104, 10 figs.
Directions as to time and preparation of insecticides.
20. ALWOOD, W. B. Second report of the State inspector for the San Jose scale. Richmond, 1899, pp. 34, 1 map.
Distribution of the scale in the State.
21. ALWOOD, W. B. The crop-pest law. <Bull. No. 102, Va. Agric. Exp. Sta., July, 1899, pp. 129-152.
22. ANDERSON, J. D. After the boll weevil. <Texas Stockman and Farmer, 8 December, 1897, p. 4.
23. [*Aspidiotus perniciosus*] San Jose scale. <American Florist, 3 June, 1899, pp. 1309-1310; 10 June, 1899, pp. 1334-1335.
Discussion regarding the comparative value of "inspection" and "fumigation," participated in by a number of entomologists and horticulturists.
24. ATWOOD, G. G. Five rules for spraying. <Country Gentleman, 15 June, 1899.
25. AUSTEN, W. Bookworms in fact and fancy. <Pop. Sci. Mo., June, 1899, pp. 140-148.
A general article on the ravages of these pests.
26. AUSTIN, F. The codlin moth. <Rural Californian, May, 1898, p. 150.
27. BAILEY, L. H. Garden making. New York, 1898, pp. 411.
Many notes on remedies for insect pests.

28. BAILEY, L. H. The San Jose scale. <Vick's Ill. Magazine, December, 1899, p. 79.
29. BAKER, C. F. The San Jose scale; a warning to the fruit growers of Alabama. <Bull. No. 77, Ala. Agric. Exp. Sta., January, 1897, pp. 27-31.
30. BAKER, C. F. Some other insect pests. <Bull. No. 77, Ala. Agric. Exp. Sta., January, 1897, pp. 31-34.
Notes on tomato worms, grape leaf-hoppers, and cabbage worms.
31. BAKER, C. F. More about the San Jose scale. A sweet-potato pest. Regarding carbon bisulfid. Insecticides and pumps in general. <Bull. No. 86, Ala. Agric. Exp. Sta., August, 1897, pp. 451-456, 2 figs.
32. BAKER, C. F. The peach-tree borer and the fruit bark-beetle. <Bull. No. 90, Ala. Agric. Exp. Sta., January, 1898, pp. 25-37, 7 figs.
Life habits and remedies against these two insects.
33. BAKER, J. E. Cure for cutworms. <Oreg. Agric. and Rural Northwest, 15 August, 1897, p. 349.
Trapped by poisoned bait.
34. BALDWIN, H. J. Ten thousand squash bugs. <Amer. Gardening, 22 January, 1898.
Trapped them.
35. [BALMER, J. A.] Kohlmeise for codlin moth. <Calif. Fruit Grower, December, 1897.
Advises introduction of the great titmouse (*Parus major*) to keep down the codling moth.
36. BANCROFT, E. H. The San Jose scale in Delaware in 1897. <Trans. Penin. Hortic. Soc., February, 1898, pp. 113-128.
37. BARNES, W. H. No San Jose scale in Kansas. <Colman's Rural World, 17 February, 1898, p. 51.
38. BARROWS, W. B. The present status of the San Jose scale in Michigan. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 27-29.
39. BARROWS, W. B. Notes on the malodorous carabid, *Nomius pygmaeus*, Dej. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 49-53.
40. BAXTER, S. The orange fruit worm. <Garden and Forest, 17 March, 1897, p. 108.
41. BEACH, F. W. Black beetle on asters. <Florists' Review, 1 September, 1898.
42. BEACH, S. A. Gooseberries. <15th Ann. Rept., N. Y. State Agric. Exp. Sta. f. 1896 (1897), pp. 339-341, 2 figs.
Brief notice of *Nematus ventricosus*, *Aegeria tipuliformis*, *Paeilocapsus lineatus*, *Epochra canadensis*, and San Jose scale.

43. BEACH, S. A., V. H. LOWE, and F. C. STEWART. Common diseases and insects injurious to fruits. <Bull. No. 170, N. Y. State Agric. Exp. Sta., December, 1899, pp. 381-445.
Treats of a large number of species, giving habits and remedies.
44. BEHR, H. H. Notes on ticks. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 90-92.
Notes on *Ornithodoros americana*.
45. BENNETT, S. E. Insect pests in poultry. <St. Louis Journ. Agric., 28 April, 1898, p. 367.
Brief notice of a few species.
46. BENSON, M. Plant enemies and how to fight them. <Vick's Mo. Magazine, May, 1899.
47. BERGHOLZ, L. Destruction of locusts. <U. S. Consular Reports, No. 209, pp. 269-270. <Nebraska Farmer, 5 May, 1898, p. 283.
Destruction of grasshoppers by use of arsenicals in Natal.
48. BERRY, M. The red spider. <Calif. Fruit Grower, 3 September, 1898, p. 1.
49. BERWICK, E. Codlin moth and kohlmeise. <Pacific Rural Press, 24 December, 1898, p. 413.
50. BERWICK, E. Is codlin moth quarantinable? <Pacific Rural Press, 7 August, 1899, p. 83.
51. BETHUNE, C. J. S. Notes on the insects of the year 1896. <27th Ann. Rept. Ent. Soc. Ontario f. 1896 (1897), pp. 55-58, 2 figs.
Notes on *Leucania unipuncta*, *Orgyia leucostigma*, *Macrobasis unicolor*, *Clisiocampa americana*, *Coleophora fletcherella*, and *Hyphantria cunea*.
52. BETHUNE, C. J. S. Notes on the season of 1897. <28th Ann. Rept. Ent. Soc. Ontario f. 1897 (1898), pp. 31-34, 4 figs.
Notes on plant lice, *Tmetocera ocellana*, *Clisiocampa americana*, *Hyphantria cunea*, *Orgyia leucostigma*, *Leucania unipuncta*, and *Graptodera chalybea*.
53. BETHUNE, C. J. S. Some household insects. <28th Ann. Rept. Ent. Soc. Ontario f. 1897 (1898), pp. 51-61, 7 figs.
Notes on cockroaches, ants, mosquitoes, fleas, and bedbugs.
54. BETHUNE, J. A. Cutworms, tomato blight, etc. <So. Planter, May, 1897, p. 218.
55. BIRD, W. N. Texas fever tick (*Böophilus bovis*). <Tenn. Farmer, 29 July, 1899, p. 1, 3 figs.
56. BISHOP, J. S. Cranberry pests and how to combat them. <Rept. Fruit Growers' Assoc. Nova Scotia f. 1899, pp. 99-103.
Treats chiefly of the fireworm, fruit worm, and spanworm.
57. BITTING, A. W. Sheep scab. <Bull. No. 80, Ind. Agric. Exp. Sta., September, 1899, pp. 63-76, 8 figs.
Treats of *Psoroptes communis*.
58. BLAIR, J. C. Spraying. <Trans. Ill. State Hortic. Soc. f. 1897, pp. 287-290.

59. BLAIR, J. C. Spraying apple trees, with special reference to apple scab fungus. <Bull. No. 54, Ill. Agric. Exp. Sta., March, 1899, pp. 181-204.
Notes on spraying for codling moth.
60. BOGUE, E. E. Some injurious orchard insects. <Bull. No. 26, Okla. Agric. Exp. Sta., June, 1897, pp. 22, 18 figs.
Treats of various common species.
61. BOGUE, E. E. The San Jose scale in Oklahoma. <Bull. No. 34, Okla. Agric. Exp. Sta., May, 1898, pp. 6, 3 figs.
Occurrence of the scale in the Territory.

Notes on *Typophorus canellus* and *Tyloclerma fragariae*.
91. BUTZ, G. C. Apples in Pennsylvania. <Bull. No. 43, Pa. Agric. Exp. Sta., July, 1898, pp. 13-15.
Short account of chief injurious apple insects.
92. BUTZ, G. C. A strawberry pest. <Amer. Grange Bull., 8 December, 1898.
Note on *Tyloclerma fragariae*.
93. CALIFORNIA STATE BOARD OF HORTICULTURE. The control of insect pests. <Prelim. Rept. (Sixth Bien.) State Bd. Hortic. Calif., 1897-98 (1899), pp. 76-88.
Notes on insecticides, *Schizoneura lanigera*, *Carpocapsa pomonella*, *Anarsia lineatella*, and hydrocyanic-acid gas.
94. CARD, F. W. Observations on the codling moth. <Bull. No. 51, Nebr. Agric. Exp. Sta., December, 1897, pp. 50, 5 figs.
<Ann. Rept. Nebr. State Hortic. Soc. f. 1898, pp. 74-118, 5 figs.
A full consideration of remedies.
95. CARD, F. W. Notes on the codling moth. <Gard. and Forest, 4 August, 1897, pp. 302-303.
96. CARD, F. W. New facts about an old foe. <Amer. Agriculturist, 16 April, 1898, p. 494.
Notes on the codling moth.
97. CARD, F. W. Killing the codling moth. <Nebraska Farmer, 28 April, 1898, p. 263.
98. CARDWELL, J. R. The Aphididæ. <Rept. State. Bd. Hortic. Oreg. f. 1897-98 (1899), pp. 433-435.
99. CARLYLE, W. L. Protecting cows from flies. <16th Ann. Rept. Wis. Agric. Exp. Sta., 1899, pp. 92-96.
Experiments in stabling against *Somoxys calcitrans* and *Hæmatobia serrata*.
100. CARNOCHAN, J. The San Jose scale. <Rural New Yorker, 8 July, 1899, p. 495.
101. CASEY, J. R. The codlin moth. <Rept. State Bd. Hortic. Oreg. f. 1897-98 (1899), pp. 413-416.
102. CAVANAUGH, G. W. Some spraying mixtures. <Bull. No. 149, Cornell Univ. Agric. Exp. Sta., July, 1898, pp. 719-721.
Analyses of several insecticides.
103. CHAMBERLIN, J. Cold winters and insect pests. <Country Gentleman, 6 July, 1899.

104. CHAMBLISS, C. E. Scale insects; San Jose and other species.
 <Bull., Vol. X, No. 4, Tenn. Agric. Exp. Sta., December,
 1897, pp. 141-151, 2 figs.
 Treats of *Aspidiotus perniciosus*, *A. wæ*, *Diaspis rosæ*, *Pulvinaria innumerabilis*,
Lecanium nigrofasciatum, and *Chionaspis furfurus*.
105. CHAPPAIS, J. C. Some insects to be combated. <Naturaliste
 Canadien, XXIV, 1897, p. 10.
106. CHITTENDEN, F. H. The strawberry weevil. <Cir. No. 21, s. s.,
 Div. Ent., U. S. Dept. Agric., 1897, pp. 7, 4 figs.
 Full account of *Anthonomus signatus*.
107. CHITTENDEN, F. H. The two-lined chestnut borer. <Cir. No.
 24, s. s., Div. Ent., U. S. Dept. Agric., August, 1897, pp. 8,
 1 fig.
 Damage by and remedies for *Agrilus bilineatus*.
108. CHITTENDEN, F. H. The rose leaf-beetle. <Bull. No. 7, n. s.,
 Div. Ent., U. S. Dept. Agric., 1897, pp. 60-61, 1 fig.
 Habits of and injury by *Nodonota puncticollis*.
109. CHITTENDEN, F. H. Insect injury to chestnut and pine trees in
 Virginia and neighboring States. <Bull. No. 7, n. s., Div.
 Ent., U. S. Dept. Agric., 1897, pp. 67-75, 2 figs.
 Treats chiefly of *Agrilus bilineatus* and *Dendroctonus frontalis*.
110. CHITTENDEN, F. H. Recent damage by strawberry weevil.
 <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp.
 78-79.
 Injuries by *Anthonomus signatus* in Maryland and Virginia.
111. CHITTENDEN, F. H. Note on the Scolytid, *Xyleborus tachy-*
graphus Zimm. <Bull. No. 7, n. s., Div. Ent., U. S. Dept.
 Agric., 1879, pp. 79-80.
112. CHITTENDEN, F. H. The harlequin cabbage bug on asparagus.
 <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp.
 80-81.
113. CHITTENDEN, F. H. A storehouse moth new to the United
 States, with notes on other species. <Bull. No. 8, n. s.,
 Div. Ent., U. S. Dept. Agric., 1897, pp. 7-10, 1 fig.
 Treats chiefly of *Ephestia cahiritella* and *E. elutella*.
114. CHITTENDEN, F. H. Notes on grain beetles of the genus *Silvanus*.
 <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp.
 10-13, 4 figs.
 Notes on *S. bicornis*, *S. mercator*, and description of *S. gossypii* n. sp.
115. CHITTENDEN, F. H. Granivorous and other habits of certain
 Dermestidæ. <Bull. No. 8, n. s., Div. Ent., U. S. Dept.
 Agric., 1897, pp. 14-24, 1 fig.
 Notes on *Attagenus piceus*, *Trogoderma tarsale*, *T. sternale*, and *Anthrenus*
verbasci.

116. CHITTENDEN, F. H. Weevils that affect the seed of the cowpea. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 24-29, 2 figs.
Notes on *Bruchus chinensis*, *B. 4-maculatus*, and *B. obtectus*.
117. CHITTENDEN, F. H. Development of the common bean weevil. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 29-30.
118. CHITTENDEN, F. H. A little-known grain weevil. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 30-31.
Notes on *Caulophilus latinasus*.
119. CHITTENDEN, F. H. On the occurrence of the grain moth (*Tinea granella* L.) in America. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 31-35.
General account of the insect.
120. CHITTENDEN, F. H. An invasion of the coffee-bean weevil. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 36-38, 1 fig.
Treats of *Aræcerus fasciculatus*.
121. CHITTENDEN, F. H. Parasites of flour and meal moths. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 38-43, 1 fig.
A list of the species, with notes.
122. CHITTENDEN, F. H. A foreign parasite of the grain weevils. <Bull. No. 8, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 43-45.
Note on *Chaetospila elegans*.
123. CHITTENDEN, F. H. Notes on certain species of Coleoptera that attack useful plants. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 20-24.
Notes on *Orsodachna atra*, *Colaspis brunnea*, *Phyllotreta armoracæ*, *Psylliodes punctulata*, *Chaetocnema pulicaria*, *C. confinis*, *Odontota dorsalis*, *Chelymormpha argus*, *Epicauta trichrus*, *Macroductylus angustatus*, and *Anthonomus nigrinus*.
124. CHITTENDEN, F. H. The bean leaf-beetle. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 64-71, 1 fig.
Full account of *Cerotoma trifurcata*.
125. CHITTENDEN, F. H. The asparagus beetles. <Yearbook U. S. Dept. Agric. f. 1896 (1897), pp. 341-352, 6 figs.
Detailed account of both species.
126. CHITTENDEN, F. H. Notes on cucumber beetles. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 26-31, 2 figs.
127. CHITTENDEN, F. H. Insects that affect asparagus. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 54-62, 1 fig.
Accounts of and remedies for the various species.

128. CHITTENDEN, F. H. The tobacco flea-beetle. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 79-82, 1 fig.
Treats of *Epitrix parrula*.
129. CHITTENDEN, F. H. Notes on the strawberry weevil; its injuries and bibliography. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 82-87.
Accounts of damage.
130. CHITTENDEN, F. H. A little-known Tineid moth of indoor habits. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 90-91.
Notes on *Tinea ferruginella*.
131. CHITTENDEN, F. H. Another moth likely to be taken for *Tinea granella*. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, p. 91.
Note on *Tinea misella*.
132. CHITTENDEN, F. H. Parasites of bean and cowpea weevils. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, p. 92.
List of species, with notes.
133. CHITTENDEN, F. H. On the food habits of the harlequin cabbage bug. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 94-95.
Additional food plants.
134. CHITTENDEN, F. H. The fruit-tree bark-beetle. <Cir. No. 29, s. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 8, 4 figs.
Full account of *Scolytus rugulosus*.
135. CHITTENDEN, F. H. The striped cucumber beetle. <Cir. No. 31, s. s., Div. Ent., U. S. Dept. Agric., May, 1898, pp. 7, 2 figs.
Detailed account of *Diabrotica vittata*.
136. CHITTENDEN, F. H. The larger apple-tree borers. <Cir. No. 32, s. s., Div. Ent., U. S. Dept. Agric., June, 1898, pp. 12, 3 figs.
Treats of *Saperda candida*, *S. cretata*, and *Chrysobothris femorata*.
137. CHITTENDEN, F. H. Insect injury to millet. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 84-86.
138. CHITTENDEN, F. H. Twig pruners and allied species. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 35-43, 4 figs.
Treats of *Elaphidion villosum* and several other species of the genus.
139. CHITTENDEN, F. H. A destructive borer enemy of birch trees. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 44-51, 3 figs.
Treats of *Agrius anxius*.

140. CHITTENDEN, F. H. A leaf-tyer of grape and elderberry.
 <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp.
 82-83.
 Habits of *Phlyctenia tertialis*.
141. CHITTENDEN, F. H. A flea-beetle living on purslane. <Bull.
 No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 83-85.
 Notes on *Disonycha caroliniana*.
142. CHITTENDEN, F. H. Biologic note on *Conotrachelus elegans* Say.
 <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp.
 94-95.
143. CHITTENDEN, F. H. A new sugar-beet beetle. <Bull. No. 18,
 n. s., Div. Ent., U. S. Dept. Agric., 1898, p. 95.
 Note on *Monoxia puncticollis* Say.
144. CHITTENDEN, F. H. A leaf-beetle injurious to cultivated sun-
 flower. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric.,
 1898, p. 96.
 Note on *Chrysomela (Zygogramma) exclamationis*.
145. CHITTENDEN, F. H. Recent injury by bark-beetles; a correc-
 tion. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric.,
 1898, p. 96.
 Notes on *Dendroctonus rufipennis*.
146. CHITTENDEN, F. H. The squash ladybird; its literature and
 biology. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric.,
 April, 1899, pp. 11-20, 2 figs.
 Account of *Epilachna borealis*.
147. CHITTENDEN, F. H. Life history of the common squash bug.
 <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April,
 1899, pp. 20-28, 3 figs.
 Account of *Anasa tristis*.
148. CHITTENDEN, F. H. The horned squash bug. <Bull. No. 19,
 n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 28-34,
 1 fig.
 Account of *Anasa armigera*.
149. CHITTENDEN, F. H. Some observations in the life history of
 the squash-vine borer. <Bull. No. 19, n. s., Div. Ent.,
 U. S. Dept. Agric., April, 1899, pp. 34-40, 2 figs.
 An account of *Melittia satyriniformis*.
150. CHITTENDEN, F. H. Notes on the pickle worm and melon cater-
 pillar. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric.,
 April, 1899, pp. 41-44.
 Notes on *Margaronia nitidalis* and *M. hyalinata*.
151. CHITTENDEN, F. H. Leaf-footed plant-bugs which attack cucur-
 bits. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric.,
 April, 1899, pp. 44-48, 2 figs.
 Treats of *Leptoglossus oppositus* and *L. phyllopus*.
 14507-01-2

152. CHITTENDEN, F. H. Notes on the striped cucumber beetle. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 48-51, 1 fig.
Notes on *Diabrotica vittata*.
153. CHITTENDEN, F. H. A new web-worm enemy of cabbage and other cruciferous plants. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 51-57, 1 fig.
Treats of *Hellula undalis*.
154. CHITTENDEN, F. H. Notes on the garden flea-hopper. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 57-62, 1 fig.
Account of *Halticus uhleri*.
155. CHITTENDEN, F. H. The imbricated snout-beetle. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 62-67, 1 fig.
Notes on *Epicærus imbricatus*.
156. CHITTENDEN, F. H. The brown fruit-chafer. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 67-74, 1 fig.
Account of *Euphoria inda*.
157. CHITTENDEN, F. H. Biologic notes on the May beetle. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 74-80, 3 figs.
Treats of *Lachnosterna arcuata*.
158. CHITTENDEN, F. H. The spinach flea-beetle. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 80-85, 1 fig.
Account of *Disomycha xanthomelæna*.
159. CHITTENDEN, F. H. Biologic and other notes on the flea-beetles which attack solanaceous plants. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 85-90, 1 fig.
Notes on *Epitrix parvula*, *E. fuscula*, and *E. cucumeris*.
160. CHITTENDEN, F. H. The cherry leaf-beetle. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 90-93.
Notes on *Galerucella cavicollis*.
161. CHITTENDEN, F. H. Notes on the plum- and rose leaf-beetles. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 93-95.
Notes on *Nodona tristis* and *N. puncticollis*.
162. CHITTENDEN, F. H. Notes on the fruit-tree bark-beetle and other borers affecting fruit trees. <Bull. No. 19, n. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 96-99.
Besides *Scolytus rugulosus* there are notes on *Chion cinctus*, *Amphicerus bicaudatus*, and *Oberea ocellata*.

163. CHITTENDEN, F. H. The squash-vine borer. <Cir. No. 38, s. s., Div. Ent., U. S. Dept. Agric., April, 1899, pp. 6, 2 figs.
A general account of the insect.
164. CHITTENDEN, F. H. Insects injurious to beans and peas. <Year-book Dept. Agric. f. 1898 (May, 1899), pp. 232-260, 17 figs.
A general account of the various species.
165. CHITTENDEN, F. H. Insect enemies of the white pine. <Bull. No. 22, Div. Forestry, U. S. Dept. Agric., September, 1899, pp. 55-61, 10 figs.
Brief notice of a number of species.
166. CLARK, I. M. Lye after kerosene. <Pacific Rural Press, 15 April, 1899, p. 230.
Treatment for San Jose scale.
167. COATES, L. San Jose scale in Eastern orchards. <Calif. Fruit Grower, 5 February, 1898, p. 4.
168. COCKERELL, T. D. A. The palmetto scale. <Garden and Forest, 13 January, 1897, p. 19.
Note on *Comstockiella sabalis*.
169. COCKERELL, T. D. A. The codling moth. <S. W. Farm and Orchard, January, 1897; May, 1897.
170. COCKERELL, T. D. A. On the danger to American horticulture from the introduction of injurious insects. Mesilla, N. Mex., 15 February, 1897, pp. 4.
Treats chiefly of scale insects, giving a list of exotic injurious species.
171. COCKERELL, T. D. A. Further note on *Aspidiotus ancylus*. <S. W. Farm and Orchard, March, 1897.
172. COCKERELL, T. D. A. A new mealy-bug (*Dactylopius pseudo-nipæ*). <Science Gossip, April, 1897, p. 302.
Found in hothouses in Michigan and California.
173. COCKERELL, T. D. A. An orchid scale (*Aspidiotus biformis*). <Garden and Forest, 21 April, 1897, p. 158.
174. COCKERELL, T. D. A. *Scymnus marginicollis*. <Garden and Forest, 5 May, 1897, p. 179.
175. COCKERELL, T. D. A. Notes on scale insects. <Calif. Fruit Grower, 8 May, 5 June, 3 July, 25 September, 1897.
Notes on predaceous Coccinellids.
176. COCKERELL, T. D. A. Forbes' scale (*Aspidiotus forbesi*) in Mesilla. <S. W. Farm and Orchard, May, 1897, p. 5.
177. COCKERELL, T. D. A. Contributions to coccidology—II. <Amer. Nat., July, 1897, p. 588-592.
178. COCKERELL, T. D. A. The codlin moth. <Garden and Forest, 25 August, 1897, p. 336.

179. COCKERELL, T. D. A. The green scale of coffee. <Garden and Forest, 1 September, 1897, p. 347.
Note on *Lecanium viride* Green.
180. COCKERELL, T. D. A. An experience with Paris green. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, p. 25.
The poison absorbed by a peach tree.
181. COCKERELL, T. D. A. The San Jose scale and its nearest allies. <Bull. No. 6, Tech. Ser., Div. Ent., U. S. Dept. Agric., 1897, pp. 31, 15 figs.
Means of distinguishing it from other species.
182. COCKERELL, T. D. A. The codlin moth. <S. W. Farm, Orchard and Stockman, January, 1898, pp. 3-5.
183. COCKERELL, T. D. A. Preliminary notes on the codling moth. <Bull. No. 25, N. Mex. Agric. Exp. Sta., February, 1898, pp. 47-68.
Habits of and remedies for *Carpocapsa pomonella*.
184. COCKERELL, T. D. A. Some observations on Mr. Barlow's bill, now before Congress, to provide rules and regulations governing the importation and inspection of nursery stock. <S. W. Farm and Orchard, March, 1898, pp. 10-11.
<Calif. Fruit Grower, 12 March, 1898, p. 198.
185. COCKERELL, T. D. A. Importation of fruit trees, etc. <Calif. Fruit Grower, 12 March, 1898.
A consideration of proposed legislation.
186. COCKERELL, T. D. A. The San Jose scale. <Entom. News, April, 1898, pp. 95-96.
187. COCKERELL, T. D. A. Quarantine against injurious insects. <Entom. News, May, 1898, pp. 119-120.
188. COCKERELL, T. D. A. Injurious insects. <Bull. No. 2, Agric. and Hortic., N. Mex. Bur. Immigration, June, 1898, pp. 10-11.
189. COCKERELL, T. D. A. Some notes on the entomology of Prunus. <Bull. No. 27, N. Mex. Agric. Exp. Sta., June, 1898, pp. 132-134.
Fertilization of plums by flies and bees, and *Anthonomus quadrigibbus*, *Clisiocampa fragilis*, and *Coleophora* sp. on wild cherry.
190. COCKERELL, T. D. A. Grasshoppers in New Mexico. <Entom. News, February, 1899, p. 43.
191. COCKERELL, T. D. A. *Megetra vittata* injuring sugar-beets. <Entom. News, February, 1899, p. 44.
192. COCKERELL, T. D. A. Some insect pests of Salt River Valley and the remedies for them. <Bull. No. 32, Ariz. Agric. Exp. Sta., December, 1899, pp. 273-295.
Treats chiefly of fruit insects.

193. COCKERELL, T. D. A., and QUAINANCE, A. L. A new species of Coccidæ of the genus *Lecaniodiaspis*. <Entom. News, September, 1897, pp. 161-163, 1 pl.
Lecaniodiaspis tessellatus on hickory.
194. COLEMAN, H. M. Sulphur blower and other topics. <Pacific Rural Press, 7 January, 1899, 1 fig.
An apparatus to blow sulphur upon red spiders.
195. CONNAWAY, J. W. Texas fever or acclimation fever. <Bull. No. 37, Mo. Agric. Exp. Sta., January, 1897, pp. 81-139, 11 figs.
Confirmation of the tick theory of transmission, experiments and remedies.
196. COOK, A. J. Our lady birds. <Calif. Cultivator, August, 1897.
General article on ladybirds, with references to the *Chrysopas* and ground beetles also.
197. COOK, A. J. The prune beetle. <Calif. Cultivator and Poultry-Keeper, July, 1898, p. 214.
Notes on *Serica fimbriata* and *S. mixta*.
198. COOK, A. J. A new pest of the grape. <Calif. Cultivator, June, 1899, pp. 214-215.
Treats of *Nysius angustatus*.
199. COOK, A. J. The bean weevil. <Calif. Cultivator, July, 1899, p. 254.
200. COOK, A. J. Ants—an interesting nuisance; how to get rid of them. <Amer. Bee Journal, 22 June, 1899, p. 386. <Pacific Rural Press, 15 July, 1899.
201. COOK, C. B. Canker worms. <Farm, Field and Fireside, 10 April, 1897, 1 fig.
202. COOLEY, R. A. Notes on some Massachusetts Coccidæ. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 61-65.
Treats of a number of common species.
203. COQUILLET, D. W. The walnut span-worm. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 64-66, 2 figs.
Life history of *Boarmia plumigeraria*.
204. COQUILLET, D. W. On the habits of the Oscinidæ and Agromyzidæ reared at the United States Department of Agriculture. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 70-79.
205. COQUILLET, D. W. A Cecidomyiid injurious to seeds of sorghum. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 81-82.
Description and habits of *Diplosis sorghicola*.
206. CORDLEY, A. B. Insects of the prune. <Bull. No. 45, Oreg. Agric. Exp. Sta., June, 1897, pp. 99-127, 13 figs.
Habits of and remedies against several species.

207. CORDLEY, A. B. Notes on *Anarsia lineatella* Zell. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 71-75.
Two forms or species under this name.
208. CORDLEY, A. B. A disease of the San Jose scale. <Oreg. Agric. and Rural Northwest, 15 November, 1897, p. 70.
209. CORDLEY, A. B. The hop aphid. <Oreg. Agric. and Rural Northwest, 1 December, 1897, p. 86.
210. CORDLEY, A. B. The bud moth. <Oreg. Agric. and Rural Northwest, 15 December, 1897, p. 102, 4 figs.
211. CORDLEY, A. B. The Hessian fly. <Oreg. Agric. and Rural Northwest, 1 January, 1898, p. 118.
212. CORDLEY, A. B. Spraying. <Bull. No. 48, Oreg. Agric. Exp. Sta., January, 1898, pp. 19, 2 figs.
Directions for preparation and use of insecticides.
213. CORDLEY, A. B. Spraying for codling-moth. <Oreg. Agric. and Rural Northwest, 1 February, 1898, p. 151.
214. CORDLEY, A. B. The prune twig borer. <Oreg. Agric. and Rural Northwest, 15 March, 1898, p. 197.
Treats of *Anarsia lineatella*.
215. CORDLEY, A. B. The time to spray for hop lice. <Oreg. Agric. and Rural Northwest, 1 August, 1898, p. 343.
216. CORDLEY, A. B. Some prune pests. <Rept. State Bd. Hortic. Oreg. f. 1897-98 (1899), pp. 417-432.
Notes on San Jose scale and peach borer.
217. CORDLEY, A. B. A new injurious insect. <Oreg. Agric. and Rural Northwest, 15 June, 1899, p. 292.
Deals with *Thricolepis inornata*.
218. CRAIG, J. The San Jose scale. <Farmers' Advocate, 21 June, 1897, p. 278.
219. CRAIG, J. Injury by the San Jose scale. <Farmers' Advocate, 5 May, 1898, p. 202-203.
220. CRAIG, J. Bordeaux mixture as an insecticide. <Country Gentleman, 2 June, 1898, p. 433.
221. CRAIG, J. Plum aphid. <Prairie Farmer, 2 September, 1899.
222. CRAW, A. Injurious insect pests found on trees and plants from foreign countries. <5th Bien. Rept. Calif. State Bd. Hortic., 1895-96 (1897), pp. 33-52, 3 pls.
A descriptive list, mostly of scale insects.
223. CRAW, A. Entomology and quarantine. <5th Bien. Rept. Calif. State Bd. Hortic., 1895-96 (1897), pp. 127-135.
Results of his work for the past two years.
224. CRAW, A. Fruit tree borers. <Calif. Fruit Grower, No. 1, 1897, p. 4.
Notes on *Sannina exitiosa*, *Egeria timuliformis*, and *Chrysobothris femorata*.

499. HEDRICK, U. P. Codling moth. <Bull. No. 64, Utah Agric. Exp. Sta., December, 1899, pp. 31-34, 2 pls.
A general account of *Carpocapsa pomonella*.
500. HEDRICK, U. P. A wasp that destroys the apple worm. <Bull. No. 64, Utah Agric. Exp. Sta., December, 1899, pp. 35-38, 5 pls.
Ammophila pruinosa destroying the larvæ of *Carpocapsa pomonella*.
501. HERRICK, G. W. Some insects injurious to stock and remedies therefor. <Bull. No. 53, Miss. Agric. Exp. Sta., March, 1899, pp. 8.
Notes on *Hæmatobia serrata*, *Simulium pecuarum*, *Gastrophilus equi*, *Comptosia macellaria*, *Æstrus ovis*, and *Hypoderma bovis*.
502. HILLMAN, F. H. Some common injurious insects of western Nevada. <Bull. No. 36, Nev. Agric. Exp. Sta., December, 1897 (March, 1898), pp. 39.
Treats of a number of common insects, and remedies for them.
503. HINE, J. S. *Sciara inconstans*—reared from carnations. <Entom. News, September, 1899, pp. 201-202, 6 figs.
504. HINKLEY, M. E. Insect pests. <Trans. Iowa Hortic. Soc., 1898, pp. 375-376.
Notes on spraying.
505. [HODGES, C. F.] Bats and codling moth. <Country Gentleman, 6 January, 1898, p. 11.

506. HOLDER, C. F. Insect migration. <Sci. Amer., 1 April, 1899, p. 996, 1 fig.
Grasshoppers in the West.
507. HOLLAND, W. J. Concerning ticks. <Can. Entom., April, 1898, pp. 96-97.
508. HOPKINS, A. D. Preliminary report on the insect enemies of forests in the Northwest. <Bull. No. 21, n. s., Div. Ent., U. S. Dept. Agric., December, 1899, pp. 27.
Notes on the habits of many forest insects.
509. HOPKINS, A. D. The San Jose or pernicious scale. <W. Va. Farm Reporter, 1897, pp. 84-86.
510. HOPKINS, A. D. Entomology and the entomologist as related to horticulture and the horticulturist. <W. Va. Farm Reporter, December, 1897, pp. 411-413.
511. HOPKINS, A. D. The periodical cicada in West Virginia. <Bull. No. 50, W. Va. Agric. Exp. Sta., January, 1898, pp. 46, 23 figs., 1 map.
Treats also of damage by tree crickets and woolly aphis.
512. HOPKINS, A. D. On the history and habits of the "wood engraver" ambrosia beetle, *Xyleborus xylographicus* Say, (*Xyleborus sacreseni* Ratz.), with brief descriptions of different stages. <Can. Entom., February, 1898, pp. 21-29, 2 pls.
513. HOPKINS, A. D. Insect enemies of the locust tree. <W. Va. Farm Review, March, 1898, pp. 88-93, 6 figs.
Notes on *Odontota dorsalis*, *O. nervosa*, *Cyllene robiniae*, and *Prionoxystus robiniae*.
514. HOPKINS, A. D. The San Jose scale in West Virginia. <W. Va. Farm Review, April, 1898, pp. 124-127.
515. HOPKINS, A. D. Some notes on observations in West Virginia. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 44-49.
Short notices of various species.
516. HOPKINS, A. D. Insects detrimental and destructive to timber products. <Proc. 19th Ann. Meet. Soc. Prom. Agric. Sci., 1898, pp. 103-108.
Treats of *Scolytus 4-spinosus*, *Dendroctonus frontalis*, *Melanophila fulvoguttata*, *Agrilus bilineatus*, *Lymercyron sericeum*, *Eupsalis minuta*, *Corthylus columbianus*, *Lyctus striatus*, and *Phymatodes variabilis*.
517. HOPKINS, A. D. Report of the entomologist. <11th Ann. Rept. W. Va. Agric. Exp. Sta., 1898, pp. 32-40.
Summary of year's work.
518. HOPKINS, A. D. Present outlook of the San Jose scale problem. <W. Va. Farm Reporter, April, 1899, pp. 76-79.

519. HOPKINS, A. D. Report on investigations to determine the cause of unhealthy conditions of the spruce and pine from 1880 to 1893. <Bull. No. 56, W. Va. Agric. Exp. Sta., April, 1899, pp. 197-461, 99 figs.
Treats of damage by many forest insects.
520. HOPKINS, A. D. White grub. <W. Va. Farm Review, August, 1899.
521. HOWARD, L. O. The use of steam apparatus for spraying. <Yearbook U. S. Dept. Agric. f. 1896 (1897), pp. 69-88, 15 figs., 2 pls.
An account of the apparatus used for this purpose.
522. HOWARD, L. O. Some insects affecting the hop plant. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 40-51, 4 figs.
Treats of *Hydræcia immanis*, *Hypena humuli*, *Polygonia interrogatonis*, and *P. comma*.
523. HOWARD, L. O. A case of excessive parasitism. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 62-63.
Parasites of *Lecanium fletcheri*, and description of *Coccophagus fletcheri* n. sp.
524. HOWARD, L. O. A leaf miner on tobacco. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, p. 76.
Note on *Gelechia piscipellis*.
525. HOWARD, L. O. A gall-making coccid in America. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 76-77, 1 fig.
Notes on *Olliffiella cristata*.
526. HOWARD, L. O. Damage by the white pine butterfly. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 77-78.
Note on an outbreak of *Neophasia menapia*.
527. HOWARD, L. O. Meal worms in soda ash. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, p. 81.
Note on *Tenebrio obscurus*.
528. HOWARD, L. O. Australian and New Zealand Coccidæ. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 81-82.
Brief notes on several species.
529. HOWARD, L. O. Two apple insects liable to importation. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, p. 82.
Mention of *Cacæcia responsana* and *C. excessana*.
530. HOWARD, L. O. A new direct benefit from insects. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, p. 82.
Rearing of spiders for use in wine cellars.
531. HOWARD, L. O. Notes from correspondence. <Bull. No. 7, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 84-87.
Short notes on a number of insects.

532. HOWARD, L. O. Additional observations on the parasites of *Orgyia leucostigma*. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 5-18.
533. HOWARD, L. O. Temperature experiments as affecting received ideas on the hibernation of injurious insects. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 18-19.
Experiment of cold storage company.
534. HOWARD, L. O. A useful American scale insect. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 38-40.
Notes on *Cerococcus quercus*.
535. HOWARD, L. O. The Mexican cotton-boll weevil. <Cir. No. 18, s. s., Div. Ent., U. S. Dept. Agric., March, 1897, pp. 8, 5 figs. Also German and Spanish editions.
A revision of No. 14.
536. HOWARD, L. O. A study in insect parasitism. <Bull. No. 5, Tech. Ser., Div. Ent., U. S. Dept. Agric., April, 1897, pp. 57, 24 figs.
A consideration of the parasites of *Orgyia leucostigma*.
537. HOWARD, L. O. The injurious insects of 1896 and the prospects for 1897. <Gentleman Farmer, May, 1897, pp. 389-396, 12 figs.
538. HOWARD, L. O. The desirability of an inspection system against foreign insects. <Proc. Natl. Conv. for the repression of insect pests and plant diseases by legislation. U. S. Dept. Agric., August, 1897, pp. 11-12.
539. HOWARD, L. O. The gipsy moth in America. <Bull. No. 11, n. s., Div. Ent., U. S. Dept. Agric., December, 1897, pp. 39, 8 figs.
A summary account of the introduction and spread of *Porthetria dispar* in Massachusetts and of the efforts made by the State to repress and exterminate it.
540. HOWARD, L. O. Mosquitoes and fleas. <Cir. No. 13, s. s., Div. Ent., U. S. Dept. Agric. Revised edition, December, 1897, pp. 4.
541. HOWARD, L. O. Report of the entomologist for 1897. <Rept. Secr. Agric. f. 1897 (December, 1897), pp. 111-116.
542. HOWARD, L. O. A new parasite of the harlequin cabbage bug. <Can. Entom., January, 1898, pp. 17-18.
543. HOWARD, L. O. The Mexican cotton-boll weevil in 1897. <Cir. No. 27, s. s., Div. Ent., U. S. Dept. Agric., January, 1898, pp. 7.
Progress of *Anthonomus grandis*.
544. HOWARD, L. O. On some parasites of Coccidæ; with description of two new genera of Aphelininæ. <Proc. Ent. Soc. Wash., IV, February, 1898, pp. 133-139.

545. HOWARD, L. O. The box-elder plant bug. <Cir. No. 28, s. s., Div. Ent., U. S. Dept. Agric., February, 1898, pp. 3, 1 fig.
Treats of *Leptocoris trivittata*.
546. HOWARD, L. O. The San Jose scale in 1896-1897. <Bull. No. 12, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 31, 1 map.
A detailed account supplementary to Bulletin No. 3.
547. HOWARD, L. O. Recent laws against injurious insects in North America, together with the laws relative to foul-brood. <Bull. No. 13, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 68.
Text of the various enactments.
548. HOWARD, L. O. The fig-eater, or green June beetle. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 20-26, 1 fig.
Account of *Allorhina nitida*.
549. HOWARD, L. O. Further notes on the house fly. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 63-65.
Experiments in killing the larvæ.
550. HOWARD, L. O. A peculiar damage to the apple. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 87-88, 1 fig.
Damage by an unknown Tineid larva.
551. HOWARD, L. O. Another lead-boring insect. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 88-89.
Damage by a species of *Lyctus*.
552. HOWARD, L. O. *Icerya purchasi* in Portugal and the Azores. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 89-90.
Occurrence of the insect in that country.
553. HOWARD, L. O. Injury by the western flea-beetle, *Phyllotreta pusilla* Horn. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 92-93.
Damage to corn, cabbage, and other vegetables.
554. HOWARD, L. O. The windrow remedy for blister beetles. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, p. 93.
555. HOWARD, L. O. White grubs of *Allorhina nitida* invading a cellar. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 93-94.
556. HOWARD, L. O. Reported damage by the green plant-bug, *Lioderma uhleri* Stal. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, p. 94.
Injurious to wheat, oats, and other field crops.

557. HOWARD, L. O. Food plants of the "cotton-stainer." <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 95-96.
558. HOWARD, L. O. Collecting locust eggs in Morocco. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, p. 96.
559. HOWARD, L. O. Poisoning grasshoppers in Natal. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 96-97.
Methods used in that country.
560. HOWARD, L. O. Collecting grasshoppers in New Hampshire. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, p. 97.
Results of State law for ten years.
561. HOWARD, L. O. Notes from correspondence. <Bull. No. 10, n. s., Div. Ent., U. S. Dept. Agric., March, 1898, pp. 97-99.
Notes on many insects.
562. HOWARD, L. O. A new egg parasite of the periodical cicada. <Can. Entom., April, 1899, pp. 102-103.
563. HOWARD, L. O. Work of the Division of Entomology. <Year-book U. S. Dept. Agric. f. 1897 (May, 1898), pp. 84-89.
564. HOWARD, L. O. Danger of importing insect pests. <Year-book U. S. Dept. Agric. f. 1897 (May, 1898), pp. 529-552, 19 figs.
Treats of various foreign insects which may be introduced into this country.
565. HOWARD, L. O. Remedial work against the Mexican cotton-boll weevil. <Cir. No. 33, s. s., Div. Ent., U. S. Dept. Agric., July, 1898, pp. 6.
Methods of combating *Anthonomus grandis*.
566. HOWARD, L. O. Two beneficial insects introduced from Europe. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 13-16, 2 figs.
Notes on *Scutellista cyanea* and *Habrolepis dalmani*.
567. HOWARD, L. O. Notes on house flies and mosquitoes. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 55-56.
Remedies for these pests.
568. HOWARD, L. O. *Pulvinaria acericola* (W. & R.) and *P. innu-merabilis* Rathv. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 57-58, 1 fig.
Showing them to be distinct species.
569. HOWARD, L. O. The San Jose scale on dried fruit. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 7-13.
An account of experiments in drying infested fruit.

570. HOWARD, L. O. The work against *Icerya purchasi* in Portugal, with an account of the introduction of *Novius cardinalis*. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 30-35.
571. HOWARD, L. O. Cotton field insects. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 85-88.
Long list of species taken in trap lantern.
572. HOWARD, L. O. The introduction of beneficial ladybirds from Australia into India. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 89-90.
An account of the various attempts.
573. HOWARD, L. O. The sugar-cane borers of the Mascarene Islands. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, p. 90.
574. HOWARD, L. O. An invasion of the larger digger wasp. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, p. 92.
Note on *Megastizus speciosus*.
575. HOWARD, L. O. Recent injury by the sugar-cane beetle and related species. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 92-93.
Damage by *Ligyris rugiceps* and *L. gibbosus*.
576. HOWARD, L. O. A new enemy to the grapevine in Mexico. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, p. 93.
Note on *Heterachthes wheeleri*.
577. HOWARD, L. O. Westward spread of the common asparagus beetle. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 93-94.
Note on *Crioceris asparagi*.
578. HOWARD, L. O. An interesting case of myiasis. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, p. 97.
579. HOWARD, L. O. The European bat-bug in America. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, p. 97.
Note on *Acanthia pipistrelli*.
580. HOWARD, L. O. A radical novelty in chinch bug work. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 97-98.
Chinch bugs on lawns in Brooklyn, N. Y.
581. HOWARD, L. O. Poisoned potato slices for *Oniscus*. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 98-99.
582. HOWARD, L. O. Notes from correspondence. <Bull. No. 18, n. s., Div. Ent., U. S. Dept. Agric., 1898, pp. 99-101.
Short notes on many species.
583. HOWARD, L. O. The economic status of insects as a class. <Science, 17 February, 1899, pp. 234-247. <Sci. Amer. Supp., March, 1899, pp. 1209-1210.

584. HOWARD, L. O. The principal insects affecting the tobacco plant. <Yearbook U. S. Dept. Agric. f. 1898 (May, 1899), pp. 120-150, 25 figs.
Detailed account of the various species known to injure tobacco.
585. HOWARD, L. O. The extermination of the mosquito. <Sci. Amer. Supp., 3 June, 1899, p. 19593.
Regarding the so-called permanganate of potash remedy.
586. HOWARD, L. O. Pests of the hop crop. <Hop Industry, Orange Judd Co., New York, 1899, pp. 113-141, 19 figs.
Accounts of the species known to affect hops.
587. HOWARD, L. O. Wheat-head army worm. <Southern Planter, August, 1899.
588. HOWARD, L. O. A remedy for gadflies: Porchinski's recent discovery in Russia, with some American observations. <Bull. No. 20, n. s., Div. Ent., U. S. Dept. Agric., November, 1899, pp. 24-28.
589. HOWARD, L. O. The present status of the caprifig experiments in California. <Bull. No. 20, n. s., Div. Ent., U. S. Dept. Agric., November, 1899, pp. 28-35.
A résumé of the subject.

621. JOHNSON, C. W. Some of the injurious insects of Pennsylvania. <Ann. Rept. Pa. Dept. Agric. f. 1896 (1897), pp. 345-364, 1 pl.
Treats of a number of insects.
622. JOHNSON, W. G. Destructive insects and methods for controlling them. <Amer. Gardening, 1897, No. I, 2 January, p. 2; II, 10 January, p. 37, 1 fig.; III, 13 March, p. 174, 1 fig.; IV, 17 April, p. 275, 1 fig.; V, 1 May, p. 317, 1 fig.; VI, 22 May, p. 375, 2 figs.; VII, 26 June, p. 455, 1 fig.; VIII, 28 August, p. 601, 1 fig.
623. JOHNSON, W. G. Some common injurious plant lice, with suggestions for their destruction. <Bull. No. 48, Md. Agr. Exp. Sta., June, 1897, pp. 89-101.
Notes on *Aphis gossypii*, *A. brassicæ*, *A. persicæ-niger*, and *Myzus cerasi*.
624. JOHNSON, W. G. Notes on some little-known insects of economic importance. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 83-85.
Notes on *Hydræcia marginidens*, *Pyrausta ferrugalis*, *Uranotes melinus*, *Cerotoma trifurcata*, *Crambus caliginosellus*, *Tribolium madens*, and *Aspidiotus forbesi*.

625. JOHNSON, W. G. Notes from Maryland on the principal injurious insects of the year. <Bull. No. 9, n. s., Div. Ent., U. S. Dept. Agric., 1897, pp. 80-82.
Brief notes on many common species.
626. JOHNSON, W. G. The peach tree borer. <Amer. Gardening, 1897, p. 275, 1 fig.
627. JOHNSON, W. G. Notes on the Morelos orange fruit-worm. <Proc. Entom. Soc. Wash., Vol. IV, No. 2 (March, 1898), pp. 53-57.
628. JOHNSON, W. G. Notes on the external characters of the San Jose scale, cherry scale, and Putnam's scale. <Can. Entom., April, 1898, pp. 82-83.
Remarks on *Aspidiotus perniciosus*, *A. forbesi*, and *A. ancylus*.
629. JOHNSON, W. G. Some insects affecting the tomato. <The Ruralist, April, 1898.
Notes on flea-beetle and tomato worm Sphinx.
630. JOHNSON, W. G. The black peach aphid—cutworms in young tobacco—law providing for the suppression and control of insect pests and plant diseases in Maryland. <Bull. No. 55, Md. Agric. Exp. Sta., May, 1898, pp. 137-149, 8 figs.
Notes on *Aphis persicae-niger*, *Agrotis ypsilon*, *Peridromia saucia*, and legislation.
631. JOHNSON, W. G. Answers to queries and notes on insects injurious in mills. XXI. <Amer. Miller, 1 June, 1898.
Notes on *Tenebroides mauritanicus*.
632. JOHNSON, W. G. Report on the San Jose scale in Maryland, and remedies for its suppression and control. <Bull. No. 57, Md. Agric. Exp. Sta., August, 1898, pp. 116, 26 figs.
A detailed account of many experiments, particularly with hydrocyanic-acid gas.
633. JOHNSON, W. G. Answers to queries and notes on insects injurious in mills. XXII. <Amer. Miller, October, 1898, p. 777, 2 figs.
Damage by *Sitotroga cerealella*.
634. JOHNSON, W. G. New enemy to celery in Maryland. <Rural New Yorker, 8 October, 1898, p. 686.
Note on celery webworm.
635. JOHNSON, W. G. Hydrocyanic acid gas as a remedy for the San Jose scale and other insects. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 39-43.
Result of his experiments.
636. JOHNSON, W. G. Notes from Maryland on the principal injurious insects of the year. <Bull. No. 17, n. s., Div. Ent., U. S. Dept. Agric., November, 1898, pp. 92-94.
Treats briefly of a number of species.

637. JOHNSON, W. G. Answers to queries and notes on insects injurious in mills. XXIII. <Amer. Miller, 1 November, 1898, 1 fig.
Treats of the Hessian fly.
638. JOHNSON, W. G. Preliminary notes upon an important peach tree pest. <Entom. News, December, 1898, p. 255.
Note on phytoptid injury.
639. JOHNSON, W. G. Spraying apparatus. <The Ruralist, January, 1899, 4 figs.
640. JOHNSON, W. G. Answers to queries and notes on insects injurious in mills. XXIV. <Amer. Miller, 1 June, 1899, p. 463.

Treats of *Formica exsectoides*, *F. subsericea*, *Ecpantheria scribonia*, *Leucania unipuncta*, *Steganoptycha claypoleana*, *Oxyptilus periscelidactylus*, *Sciara* spp., *Piophilæ casei*, *Lebia grandis*, *Plagionotus speciosus*, *Saperda tridentata*, *Crioceris 12-punctata*, *Galerucella luteola*, *Odontota dorsalis*, *Balaninus proboscoides*, *B. rectus*, *Cicada septendecim*, *Pemphigus rhois*, *Gossyparia ulmi*, *Neuronia pardalis*, *Leptodesmus falcatus*; notes on *Tenthredo rufopectus*, *Datana integerrima*, *Leucania albilinea*, *Eufitchia ribearia*, *Anisopteryx vernata*, *Cacæcia rosaceana*, *Euphoria inda*, *Elaphidion villosum*, *Crioceris asparagi*, *Macrobasis unicolor*, *Blissus leucopterus*, *Aspidiotus perniciosus*, *Kermes galliformis*, *Phytoptus pruni*, mosquitoes, and a Cecidomyid in chokecherries.
742. LINTNER, J. A. Thirteenth report on the injurious and other insects of the State of New York, 1897. <51st Ann. Rept. N. Y. State Mus. Nat. Hist., 1898, pp. 331-390, 3 figs., 2 pls.
Treats of *Tenthredo rufopectus*, *Urocerus albicornis*, *U. cressoni*, *Eacles imperialis*, and *Lygus pratensis*; notes on *Pyrallis costalis*, *Cecidomyia legumini-cola*, *Anthrenus scrophulariæ*, *Elaphidion villosum*, *Cyllene pictus*, *Galerucella luteola*, *Blissus leucopterus*, *Pemphigus populi-transversus*, *Chaitophorus* sp., *Callipterus ulmifolii*, *Drepanosiphum acerifolii*, *Aphis mali*, *Myzus cerasi*, *Myzus ribis*, *Rhopalosiphum* sp., and *Thrips tabaci*.
743. LLOYD, J. W. Fighting the San Jose scale. <Farm, Field and Fireside, 9 April, 1898, p. 456.

744. LOCHHEAD, W. A few of the most noxious insects. <Rept. Ont. Agric. Coll. and Exp. Farm, 1898, pp. 11-13, 4 figs.
Notes on *Aphis brassicae*, *Clisiocampa dissidia*, *Nematus erichsonii*, and *Lecanium* sp.
745. LOCHHEAD, W. The San Jose scale problem. <Farming, 13 June, 1899, 1 fig.
746. LODEMAN, E. G., and GOULD, H. P. Spray calendar. <Bull. No. 114, Cornell Univ. Agric. Exp. Sta., February, 1896; second edition, April, 1898.
Remedies and time of application.
747. LOWE, V. H. Two important insect pests. <Trans. N. Y. State Agric. Soc. f. 1896 (1897), pp. 338-361, 3 pls.
Treats of cankerworms and pistol-case bearer.
748. LOWE, V. H. Three important insects injurious to nursery stock. <Proc. 42d Ann. Meet. West. N. Y. Hortic. Soc. <Trans. N. Y. State Agric. Soc. f. 1896 (1897), pp. 644-658.
Treats of peach-tree borer, woolly aphid, and San Jose scale.
749. LOWE, V. H. Report of the entomologists. Part I. <15th Ann. Rept. N. Y. State Agric. Exp. Sta., f. 1896 (1897), pp. 523-607; 15 pls.
Treats of grasshoppers, *Diabrotica vittata*, *Crioceris asparagi*, *C. 12-punctatus*, *Myzus ribis*, *Tetranychus telarius*, *Blissus leucopterus*, *Aspidiotus ancyllus*, *Mytilaspis pomorum*, cankerworms, experiments with green arsenite (Scheele's green), experiments with dendrolene, *Lina scripta*, *Coleophora malivorella*, nursery-stock inspection, *Sannina exitiosa*, *Schizoneura lanigera*, and *Leucania unipuncta*.
750. LOWE, V. H. The pistol-case bearer. <Bull. No. 122, N. Y. State Agric. Exp. Sta., April, 1897, 13 pp., 3 pls.
Treats of *Coleophora malivorella*.
751. LOWE, V. H. The pistol-case bearer. <Garden and Forest, 9 June, 1897, pp. 224-225, 2 figs.
Account of *Coleophora malivorella*.
752. LOWE, V. H. Inspection of nurseries and treatment of infected nursery stock. <Bull. No. 136, N. Y. State Agric. Exp. Sta., December, 1897, pp. 30, 6 pls.
Notes on the various insects found and remedies for them.
753. LOWE, V. H. Plant-lice—descriptions, enemies, and treatment. <Bull. No. 139, N. Y. State Agric. Exp. Sta., December, 1897, pp. 646-664, 4 pls.
Treats of plant lice in general and of *Hyalopterus pruni* and *Myzus ribis* in particular.
754. LOWE, V. H. The tent caterpillar destructive. <Amer. Agriculturist, 14 May, 1898, p. 618.
755. LOWE, V. H. The raspberry sawfly. <Bull. No. 150, N. Y. State Agric. Exp. Sta., December, 1898, pp. 251-262, 6 pls.
Treats of *Monophadnus* (*Monophadnoides*) *rubi*.

756. LOWE, V. H. Preliminary notes on the grape-vine flea-beetle. <Bull. No. 150, N. Y. State Agric. Exp. Sta., December, 1898, pp. 263-265, 1 pl.
Habits of and remedies for *Haltica chalybea*.
757. LOWE, V. H. Two destructive orchard insects. <Bull. No. 152, N. Y. State Agric. Exp. Sta., December, 1898, pp. 279-301.
Treats of *Clisiocampa americana*, *C. distria*, *Hyphantria cunea*, and *Anisop-teryx vernata*.
758. LOWE, V. H. A Trypeta attacking sour cherries. <Country Gentleman, 31 August, 1899, p. 693.
Notes on *Trypeta cingulata*.
759. LOWE, V. H. The forest tent caterpillar. <Bull. No. 159, N. Y. State Agric. Exp. Sta., October, 1899, pp. 35-60, 6 pls.
Full account of *Clisiocampa distria*.
760. LUGGER, O. The Orthoptera of Minnesota. <Bull. No. 55, Minn. Agric. Exp. Sta., December, 1897, pp. 295, 187 figs.
An account of all the species known in the State, and remedies for grasshoppers in general.
761. LUGGER, O. Butterflies and moths injurious to our fruit-producing plants. <Bull. No. 61, Minn. Agric. Exp. Sta., March, 1899, pp. 55-333, 24 pls., 237 figs.
Brief accounts of a large number of species.
762. [LUGGER, O.] White mountain locust here. <Farm, Stock and Home, 15 July, 1899, 3 figs.
Melanoplus atlantis in Minnesota.
763. LUGGER, O. The Hessian fly. <Bull. No. 64, Minn. Agric. Exp. Sta., October, 1899, pp. 551-557, 5 figs.
A general article on the insect.
764. LUGGER, O. Migratory locusts or grasshoppers. <Bull. No. 64, Minn. Agric. Exp. Sta., October, 1899, pp. 558-569, 7 figs., 2 pls.
Notes on *Melanoplus spretus*, *M. femur-rubrum*, *M. atlantis*, *M. bivittatus*, and *Camnula pellucida*.
765. LUGGER, O. Beetles injurious to fruit-producing plants. <Bull. No. 66, Minn. Agric. Exp. Sta., December, 1899, pp. 85-331, 164 figs.
Brief accounts of many species.
766. MACLELLAN, A. Protecting the elm. <Amer. Gardening, 27 August, 1898.
Protests against the use of bands to keep off the elm-leaf beetle.
767. MALLY, C. W. Studies of the San Jose scale outbreak in Ohio. <Ohio State Hortic. Soc., 1897, pp. 58-61, 1 fig.

1213. TROOP, J. The San Jose scale in Indiana. Newspaper bulletin. <Field, Farm and Fireside, December, 1897.
1214. TROOP, J. Insecticides, fungicides, and spraying. <Bull. No. 69, Ind. Agric. Exp. Sta., March, 1898, pp. 33-40.
General directions for preparation and use of insecticides.
1215. TROOP, J. The San Jose and other scale insects, and the Indiana nursery-inspection law. <Bull. No. 78, Ind. Agric. Exp. Sta., May, 1899, pp. 45-52, 3 figs.
Notes on *Aspidiotus perniciosus*, *A. ancylus*, *Mytilaspis pomorum*, and *Chionaspis furfurus*.
1216. VAN DEMAN, H. E. The caprifig and the fig wasp. <Calif. Fruit Grower, 25 June, 1898, p. 4.
1217. VANDERFORD, C. F. Harlequin cabbage-bug. <Tennessee Farmer, 30 July, 1898.
1218. VAN SLYKE, L. L. Report of analyses of Paris green and other insecticides. <Bull. No. 165, N. Y. State Agric. Exp. Sta., December, 1899.
1219. W[—], F. A. The San Jose scale. <Country Gentleman, 26 October, 1899, p. 853.
1220. W[—], G. E. The grain weevils and insects. <Country Gentleman, 29 September, 1898, pp. 773-774.
A general article.
1221. WALDRON, C. B. Some destructive insects. <Bull. No. 34, N. Dak. Agric. Exp. Sta., December, 1898, pp. 293-304.
General notes on various species, principally *Melanoplus spretus*.
1222. WALKER, E. The fruit bark beetle. <Southern Farmer and Hortic., July, 1898, pp. 214-215.
Popular article on *Scolytus rugulosus*.

1223. WALKER, E. San Jose scale. <Southern Farmer and Hortie., August, 1898, pp. 243-244.
Popular article on this pest.
1224. WALKER, E. The apple twig borer. <Cotton Planter, 21 April, 1899.
Treats of *Amphicerus bicaudatus*.
1225. WARREN, B. H. The army worm. <Ann. Rept. Pa. Agric. Exp. Sta. f. 1896 (1897), pp. 164-220, 8 pls.
Treats also of birds eating the army worm; loss by worm in the State at least \$300,000.
1226. WAUGH, F. A. A report on the occurrence of the cabbage root maggot. <Rept. Vt. Agric. Exp. Sta. f. 1896 (1897), pp. 116-119.
Treats of *Phorbia brassicæ*.
1227. WAUGH, F. A. Insects and pollination. Report of the horticulturist. <11th Ann. Rept. Vt. Agric. Exp. Sta., March, 1899, pp. 245-247.
Insects visiting plum blossoms.
1228. WEBB, W. Report on San Jose scale. <Trans. Penin. Hortic. Soc., February, 1898, pp. 114-115.
1229. WEBBER, H. J. More on the white fly. <Fla. Farmer and Fruit Grower, 20 March, 1897.
1230. WEBBER, H. J. Warfare against scale insects. <Calif. Fruit Grower, 28 August, 1897, p. 4; 4 September, 1897, p. 4.
Deals chiefly with certain fungous parasites of scale insects.
1231. WEBBER, H. J. Notes on orange diseases in Florida. <Rural Calif., September, 1897, pp. 321-322.
Notes on *Penthales mytilaspidis*, the purple or hairy mite.
1232. WEBBER, H. J. Sooty mold of the orange and its treatment. <Bull. No. 13, Div. of Physiol. and Path., U. S. Dept. Agric., 1897, pp. 34, 5 pls.
Treats of fungi affecting *Aleyrodes citri* and *Ceroplastes floridensis*.
1233. WEBSTER, F. M. Report of the entomologist. <15th Ann. Rept. Ohio Agric. Exp. Sta., f. 1886 (1897), pp. xxxii-xxxvi.
Brief notes on several insects.

INDEX.

Abraxia groszostriata, 504.
Acanthia = *Klinocephalus*.
Aceridium frontalis, 604.
 shoshone, 604.
Acronycta oblitivita, 127.
 (species), 761.
Actias luna, 761, 1314.
Adalia bipunctata, 299, 356.
Adiasola americana, 596.
Adinomia cavicornis = *Galerucella*.
 femoralis, 765.
 rufosanguinea, 816.
Adoretus umbrosus, 222.
Egeria tipuliformis = *Sceta*.
Agrilus anxius, 139, 340, 1112.
 bilineatus, 107, 169, 487, 516, 621.
 interruptus, 487.
 ruficollis, 765.
 sinuatus, 43, 785, 1287.
Agromyza æneiventris, 1306.
 simplex, 127.
 (species), 204.
Agrotis annexa = *Feltia*.
 clandestina = *Noctua*.
 fennica = *Noctua*.
 messoria = *Carneades*.
 ochrogaster = *Carneades*.
 satiefa = *Peridromia*.
 scandens = *Carneades*.
 subgothica = *Feltia*.
 ypsilon, 127, 584, 630, 761, 890, 982.
Aletia xyliana, 582, 773, 959.
Aleurodes citri, 247, 1229, 1236, 1282.
 ruborum, 891.
 sp., 832.
 tabaci, 584.
 vaporariorum, 65, 247.
Allocota thyridopterigis, 536.
Alloerhina mutabilis, 198.
 nitida, 497, 548, 555, 786, 898, 1152, 1308.
Alsophila pometaria, 64, 77, 91, 258, 496, 740, 761, 867, 1192, 1307, 1309.
Alypia octomaculata, 466, 761.
Amblyomma unipunctata, 820, 833, 834.
Ambrosia beetles, 593.
Ammophila pruinosa, 500.
Amorphota orgyia, 596.
Ampelogypter sesostris, 765, 1272.
Ampelophaga myron = *Everyx*.
Amphicerus bicaudatus, 43, 66, 77, 162, 466, 765, 867, 893, 1192, 1224.
Amphion nesus, 761.
Amphipyra pyramidoides, 761.
Anabrus simplex, 604.
Anametis grisea, 765.
Anaphes gracilis, 632.

Anarsia lineatella, 93, 206, 207, 214, 258, 262, 269, 407, 463, 466, 761, 782, 1339, 1341, 1351.
 pruinella, 782.
Anasa armigera, 143.
Anasa tristis, 34, 147, 345, 369, 414, 466, 477, 478, 892, 893, 924, 1145, 1146, 1309.
Angerona crocataria, 761.
Anisopteryx pometaria = *Alsophila*.
 vernata, see *Paleacrita*.
Anisota rubicunda, 837.
 senatoria, 761.
Anomala binotata, 765.
 lucicola, 765, 1279.
 marginata, 765.
 minuta, 765.
 undulata, 1305.
Anthonomus grandis, 22, 535, 543, 568, 895, 768, 769, 770, 771, 772, 773, 907, 968.
 nigrinus, 133.
 quadrigibbus, 67, 77, 189, 414, 765, 796, 874.
 signatus, 106, 110, 129, 625, 632, 646, 765, 952, 1038.
 suturalis, 765.
Anthrenus scrophulariæ, 248, 279, 396, 406, 466, 496, 650, 721, 742, 1259.
 verbasci, 115.
Anthribus confusus, 765.
Anta, 83, 206, 247, 298, 299, 351, 405, 466, 582, 622, 741, 962, 1109, 1129, 1130.
Aonidia auranti, 775, 1094, 1173.
 fusca, 523.
Apanteles carpatus, 121.
 congregatus, 449.
 delicatus, 536.
 ephestiæ, 121.
 hyphantriæ, 586.
 parorgyæ, 532.
Aphelinus fuscipennis, 632, 1138.
 mytilaspidis, 632.
Aphididæ, 52, 67, 68, 299, 391, 502, 612, 622, 729, 753, 1088, 1156, 1221, 1367, 1373.
Aphis brassicæ, 418, 419, 421, 466, 502, 623, 625, 632, 744, 893, 920, 1066, 1352.
 chrysanthemicola, 1078.
 encurtæris = *A. gossypii*.
 forbesi, 646, 878, 879.
 gossypii, 127, 345, 466, 623, 635, 632, 646, 892, 893, 920, 924, 1071, 1138, 1141, 1174.
 maidi-radiæ, 1263.
 malii, 77, 91, 267, 300, 398, 419, 421, 455, 465, 466, 496, 496, 502, 720, 742, 796, 822, 867, 1029, 1044, 1054, 1116.
 persicæ-niger, 89, 414, 455, 623, 625, 630, 867, 966.
 prunicola, 632, 636, 646, 867, 1272.
